[US: Preserve the Indian Child Welfare Act \(Commentary\)](#)

My San Antonio - May 06, 2019

Because child welfare cases are so complex, a number of Laws and legal practices are specifically designed to ensure the best outcomes. Perhaps one of the most highly regarded among these laws has been the Indian Child Welfare Act, or ICWA, which at its core helps keep Native American children within their families, communities and heritage.

The ceremony was historic because it was the first time a Tribal family adoption was finalized on a Seminole Reservation – this one taking place in the Tribal headquarters auditorium. It was also a day of celebration for parents Andrea and Joshua Jumper, their family and friends. The couple has now officially adopted 2-year-old Loraine Marie Stewart Jumper.

Committee on Indian Affairs – May 24, 2019

The crisis of Missing and Murdered Indigenous Women is rooted in the alarming rates of violence against Native women that too often goes unaddressed because of jurisdictional gaps. In 2013, I was proud to lead the charge to make sure that Native women were included in the Violence Against Women Act. That was a step in the right direction. But there are still gaps in VAWA that allow violent offenders to slip through the cracks of the justice system.

# CALIFORNIA TRIBAL COURT–STATE COURT FORUM

**Abstract:** This scoping study yielded 37 empirical studies published in peer-reviewed journals addressing one of the most pressing, sensitive, and controversial issues facing child welfare policymakers and practitioners today: the dramatic overrepresentation of Indigenous families in North American public child welfare systems. These studies indicate that relative to other child welfare-involved families, Indigenous families typically experience intense social challenges in the face of few available services. They also may experience racism when accessing available county, state and provincial child welfare services that undermines trust and engagement. Some promising research suggests that partnerships between government child welfare systems and Indigenous tribes and communities may improve services to struggling families. Given the seriousness of the social justice issues, as well as the sheer volume of empirical research in child welfare, the question of how to strengthen child welfare with Indigenous families clearly is under-researched. Notable gaps in the existing literature include the voices of Indigenous children and parents involved in the child welfare system and attention to cultural variation in child protection beliefs and practices across the many Indigenous communities of North America. More work also is needed to design, implement, and evaluate culturally-based child welfare practices; and examine how to build capacity at the tribal level. (Author abstract)
