I strongly support the immediate implementation of the recommendations of the Strategic Evaluation Committee. Action is long overdue. Judges, who have raised concerns about the abuses of the AOC, have been ignored for years. Now the Judicial Council has been provided with overwhelming evidence of the need for swift, decisive, and comprehensive reforms. Each delay in the implementation of the necessary reforms enables the AOC to continue to mismanage valuable public resources. Now is the time for the Judicial Council to accept its responsibility to restore confidence in the integrity of the judicial branch.
