---

I support the immediate implementation of all of the SEC report recommendations. In my 22 plus years as a judge (retired) I have seen the AOC evolve from a helpful, useful and well run state agency into one that is unresponsive, arrogant, and supremely wasteful of the public's money. Given the horrific waste of money on the CCMS system, while in excusable, I can at least understand how that might happen after all the DMV did the same thing .What I cannot understand is the cover up and out right lies and those are not my words rather they are the findings of both the Legislative Annalist's report on CCMS and the SEC report. A judge who engaged in such conduct would rightfully be removed from the bench, how can a judicial agency be allowed to conduct its business in such a manner? Please act swiftly. Thank you ,Gary S Mullen Superior Court (retired).
