4

WHAT ARE ADJUSTMENTS?

5

ADJUSTMENTS TOTALS

6

6

Adjustment Score:
Dollar value of adjustments against the total referral balance.

Adjustments	\$ 6,087,666
Score	21.91
Cluster Average	30.75

Adjusted **LESS** than average.

Performance normalizing metric

ADJUSTMENT SCORE

- **Definition:** Adjustment Score is a representation of the dollar value of adjustments against the total referral balance.
- **What it Means:**
 - The relative amount of revenue that an entity adjusted through non-cash means.
 - The adjustment score is a normalizing metric and is intended to help entities understand where they stand in terms of adjustments with the other entities in their cluster.

7

To accurately report balances related to each court case

To accurately report changes in expected revenues

To properly evaluate impacts of programs and effectiveness of adjustment actions

To seek future reimbursement (Launch of ATP tool statewide)

WHY TRACK ADJUSTMENTS?

8

CHALLENGES WITH REPORTING ADJUSTMENTS

Case management system does not currently track and may be archaic

Breaking down a general adjustment figure into further details that are not tracked at a detail level

Technology support is not sufficient or prioritized

Manual tracking effort not feasible; continued staffing challenges

9

THE SIMPLE MATH OF IT

Beginning Balance on CHY Payments Received Adjustments Ending Balance as confirmed by CHC

COMBINED BEGINNING AND ENDING BALANCES, FINES, FEES, FESFETURES, PENALTIES AND ASSESSMENTS									
	Number of Cases Beginning Balance	Value of Cases Beginning Balance	Gross Revenue Collected	Cost of Collections (Penal Code 963.007)	Adjustments	Discharge from Accountability	Net Change in Value	Number of Cases - Ending Balance	Value of Cases - Ending Balance
Program	Col. X	Col. Y	Col. Z	Col. AA	Col. AB	Col. AC	Col. AD	Col. AE	Col. AF
3 Non-Subsequent Collections			42,477.00						
3 Court Collector Program	342,641	30,346,425	25,521,960	(4,977,320)	7,585,116	-	12,468,076	261,227	167,935,359

10

THE COMPLEXITIES

- ← Breaking down the Adjustments Figure
- 🗄 Backing into the Adjustment Figure
- ✓ Future Tracking of Adjustments
- 📊 Making sure the Math works: Is it Science or Art?

11

Math as Art

12

SCIENCE VS. ART

- "Scientifically" 50% of our adjustment total is pulled from data that is tracked in our case management system.
- "Artistically", the remaining 50% is deduced and presented as untracked judicial actions i.e., dismissals and reductions done in the courtroom.
- Goal is to capture needed elements of data in the "artistic" portion and move it over to the "scientifically" pulled data.

13

SUGGESTED STRATEGIES FOR REPORTING ADJUSTMENTS

Identify what data related to adjustments is currently captured and what method is used to capture it.

Work with your Technology team to pull the data according to required criteria.

If the data is not currently captured, do the simple math by deducting the gross revenue and ending balance from the beginning balance. This will give you the estimated total adjustment value. Break down what you can.

Going forward, determine what changes in system, procedures or method is needed to capture the adjustment data at a more detailed level.

Each year increase the identification of more data elements that can be marked and pulled for more detailed reporting of adjustment categories.

14

LEGISLATED OR MANDATED ADJUSTMENTS

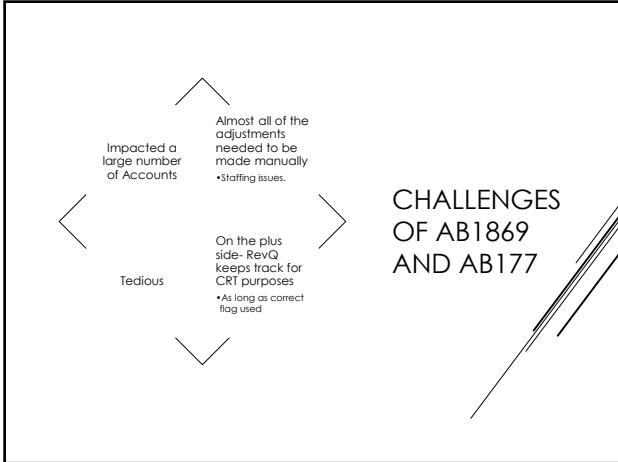

Legislation such as AB 1869 or AB 177 adjustments would be required to be reported

These are much easier as they are already tracked for purposes of current distribution and reporting

System queries can therefore easily be done to secure that data for the annual report

Capturing the data at initiation of any new legislated fine or fee or any new process such as ATP tool will be the key to reporting adjustments that are a result of fines and fees that may be repealed or for requesting reimbursements for specific adjustments.

15

16

DISCHARGE

- Discharge is authorized and can be approved by responsible collecting entity (Government Code § 25257 and 25259.7)
- Discharge relieves entity of obligation to actively pursue the debt, but individual remains liable for payment.
- Discharge any balance too small to justify collections cost or likelihood of collection does not warrant the expense.
- Discharge provides realistic accounting of outstanding debt.

17

17

Discharge Facts

- \$2,022,814,011** Amount discharged since 2012
- 2010** Authorized a collections program operated by a court to approve discharge
- 16** Number of collection programs that have discharged \$0
- \$7.8B** Total statewide uncollected delinquent debt (as of June 30, 2021)
- 24%** Unpaid balance held by 16 programs with no discharge process implemented
- 1** Program obtained approval by addressing process as "suspension of active collection efforts..."

18

18

DISCHARGE SCORE

- Definition:** Discharge Score is a representation of the dollar value of discharges against the total referral balance.
- What it Means:**
 - The relative amount of revenue that an entity discharged.
 - The discharge score is a normalizing metric and is intended to help entities understand where they stand in terms of discharges with the other entities in their cluster.

Discharge Score:

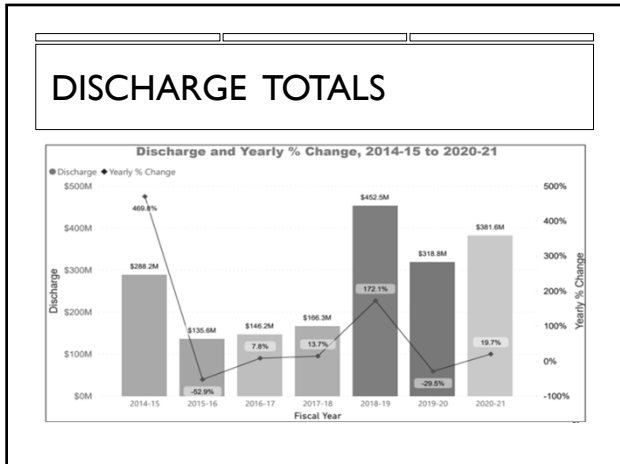

Dollar value of discharges against the total referral balance.

Discharges	\$ 72,572,423
Score	261.25
Cluster Average	61.37

Adjusted **MORE** than average

Performance normalizing metric

19

20

21

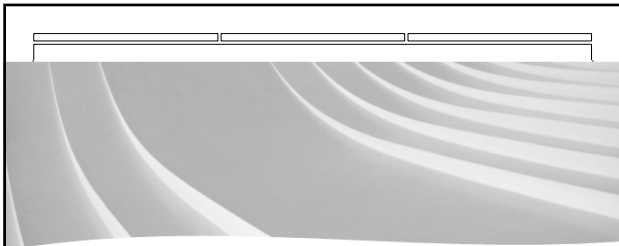

POLL #1

When should debt be considered for discharge?

- a. All collections tools have been exhausted
- b. Debt meets age criteria in guidelines (5 years and 10 years)
- c. Death certificate has been submitted to collecting entity
- d. All of the above are correct

22

22

Discharge from Accountability

ORANGE

ORANGE COUNTY PROBATION DEPARTMENT

23

FIRST TIME FOR EVERYTHING

- OC Courts First Request for Discharge from Accountability in July 2021
 - \$110 Million Request
 - 146K Court Cases Submitted
 - Criteria was for cases at least 10 years old and where payment has not been received in the last 10 years
- OC Probation First Request for Discharge from Accountability is planned for June of 2022
 - Estimated to be for approximately \$17M Request
 - Estimated to be 42K Court Cases
 - Criteria #1 - was for cases at least 5 years old where payment has not been received in the last 5 years.
 - Criteria #2 --Accounts (may represent multiple cases) valued at less than \$100 where payment has not been received in the last 2 years.

24

CHALLENGES

- Data and Technical Challenges
- IT Resource Allocation Challenges
- Political Challenges
 - i.e. Large Numbers, Mis-understood

25

BENEFITS

Realistic Metrics and Program Measurement Statistics	Cost of Collections is more accurate as resources are not being spent on largely uncollectible accounts.
Able to Better Focus Limited Resources	Small caseload assignments to staff members
Team Moral Improvements	Better results, resulting in improved team moral

26

LESSONS LEARNED

Start	Start Planning Early
Gain	Gain Political and Management Support Early
Focus on	Focus on the Benefits
Emphasize	Emphasize that this action does not relieve the debt from the debtor <small>*This action only relieves your responsibility to collect on the debt</small>
Build	Build a Repeatable Process
Commit	Commit to an Annual Discharge

27

IMPLEMENTATION

- Determine your Selection Criteria
 - Age, Payment Status, Threshold Amount, By Case, By Account etc.
- Timing for Discharge from Accountability
 - Determine when you will make your request
 - Beginning of Fiscal Year, End of Fiscal Year etc.
- Frequency
 - How often Will you Request Discharge from Accountability
 - Annually, Bi-Annually etc.
- Reporting
 - What reports will you be required to produce and maintain
- Plan for Payments Received
 - Develop a process for payments you may still receive on accounts from which you have been granted Discharge from Accountability.

28

SAN BERNARDINO SUPERIOR COURT

Discharge from Accountability

SUPERIOR COURT OF SAN BERNARDINO

29

**DISCHARGE FROM ACCOUNTABILITY:
SAN BERNARDINO HAS HISTORY**

- San Bernardino Courts First Request for Discharge from Accountability in April 2021
 - Existing Policy and procedure manual
 - Unable to replicate the data parameters (Debt parameters: \$81 for Infractions and \$221 for Misdemeanors)
 - Outdated Methodologies
- Researched the topic
 - Discharge online
 - Multiple calls and meetings with those who could offer guidance
 - Kendra King- Los Angeles
 - Caroline Idoc- San Diego
 - Maria Lira- JCC

DISCHARGE FROM ACCOUNTABILITY

30

POLL #2

In your opinion, why has your program not implemented a regular discharge process?

- a. We lack available staff -- it is too time-consuming
- b. Pushback from Presiding Judge/Executive Office or Board of Supervisors
- c. View that \$1 is better than \$0
- d. Eventually all court-ordered debt will go away
- e. We discharge debt on a regular basis

31

31

IMPLEMENTATION AND OUTCOMES

Local Criteria	a) Infraction or Misdemeanor case b) The balance is too small to justify the cost of collection; or c) The likelihood of collection does not warrant the expense involved.
Timeline	Initiated January 2021 with completion by April 2021
Frequency	How often Will you Request Discharge from Accountability?
Vendor Reporting	Dataset validated by Court, updated in Odyssey, and returned to Revenue Recovery.
Outcomes	April 2021, an inventory of 133,523 cases were Discharged from Accountability

32

INELIGIBLE DISCHARGE CASES

- 2021 dataset provided by ATC- Revenue Recovery contained 142,918 proposed discharge cases
- Data Concerns
 - Hidden Cases
 - Test Cases
 - Balance Discrepancies
 - Multi-Defendant Misdemeanor Cases
 - Case Payment within last 10-years

SUPERIOR COURT OF SAN BERNARDINO, DISCHARGE FROM ACCOUNTABILITY

33

LESSONS LEARNED

- Importance of a detailed Timeline
- Department Support
- Emphasize that this action does not relieve the debt from the debtor
 - This action only relieves your responsibility to collect on the debt
- Build a Repeatable Process
- Commit to an Annual Discharge

2022 Proposed Discharge Cases		
Case Type	Proposed Cases	Proposed Amount
Infraction	8,816	\$ 5,553,497.13
Misdemeanor	1,668	\$ 734,153.23
2022 Proposed Discharge	10,484	\$6,287,650.36

- ▶ Deceased
 - ▶ Used DMV and other databases
- ▶ Started with oldest debtors
- ▶ So far over 3000 Accounts worth 3 million dollars
 - ▶ 7 % of our portfolio
- ▶ Great place to start for the 16 programs that have not discharged

WHERE WE BEGAN

39

▶ Discharge

- ▶ Hope to go to the board end of fiscal year or start of next.
- ▶ Looking to do 10 million dollars
- ▶ Starting in oldest amount of debt

NEXT STEPS

40

▶ Current

- ▶ 15 years or older with no contact for 10 years
- ▶ Exceptions:
 - ▶ Less than \$ 100 with no contact for 5
 - ▶ Likely deceased
 - ▶ Any case over 10 years old with no contact and incomplete data
